

Designer Touches

From a day dream to a reality, Mary Georgiou has pushed her company Designer Touches to the very peak of the interior design world.

Designer Touches has been established for approximately 10 years. The company based in Epsom, Surrey, specialises in residential property, with the majority of their clients in the affluent Oxshott, Cobham, Esher and Weybridge area. However, their services have been enjoyed as far afield as Spain and the North of England.

Whether the project is a show home for a developer or a refurbishment of an older property for a private client, it is certain that the result will exceed the client's expectations. Equipped with a professional but friendly and helpful team, it's no wonder Designer Touches provides one of the best

interior design services in Surrey and receives rave reviews on the company's website.

Their objective is simple - to make the property look its best through excellent design execution. Mary's passion for her work is apparent and every client is given the same unrivalled personal attention, however large or small the project.

From contemporary to traditional styling, Mary will source, design and cost the entire project, whether the request is for a pair of curtains or for the design of an entire house. Clients are presented with design boards giving a visual concept of the proposed scheme, and offering many products not normally

interiors

available to the public. Once finishing touches are made to the designs, Mary's own highly skilled team will install and do all the work proposed with Mary overseeing and managing the entire process. The convenient service Mary Georgiou provides is accompanied by a very down to earth personality which results in a very easy to talk to and friendly relationship with Mary - a fact which is very apparent in her client's testimonials.

Mary grew up in Battersea, South London with a strong influence in design as her parents were in the dress making business, making dresses for top designers including Ben de Lisi, Caroline Charles and royal wedding

designers the Emmanuels. Mary's parents spotted an underlining talent and eye for design from an early age, so they encouraged her to study art and design at university. Within one year of graduating, Mary's talent was spotted on an even further scale when she won the much coveted British fashion award. She enjoyed 10 successful years in the fashion business, with her designs being worn by top celebrities and sold in exclusive design stores around the world including London, New York, Tokyo, Milan and Paris. Mary then had to put her business on hold at the arrival of her two children, Alex and Andreas. When it was time for her to get back to business, Mary saw the ▶

fashion world had declined so she opted for a more vibrant interior design industry. Mary started slowly and as her experience grew her confidence and abilities followed.

Now established in the most exclusive areas in the country, including St. George's Hill in Weybridge and the Wentworth Estate in Virginia Water, Mary has just completed her first showcase project, Ocho Rios, on the prestigious Crown Estate in Oxshott, Surrey.

She designed and project managed the entire project from start to finish, making every decision from the colour of the brickwork to the final scatter cushion. The house is being marketed for a price tag of £6,000,000, with the heavyweight estate agents Knight Frank describing it as 'Simply stunning.' Ocho Rios boasts 7 bedrooms including the master bedroom with his and her dressing rooms and impressive en-suite's. Ocho Rios has a classic yet modern theme, appealing to a large audience – a feat that Mary accomplishes with apparent ease.
